

SNCNA TEST

- Explain types of medium ?
- Types of network communication ?
- Write down pc and switch 8 pins in order ?
- Color code of T568B ?
- PC – PC cable crimping type ?
- Router ---- Switch cable crimping type ?
- Explain Auto-Mdix function ?
- Explain function of wired and wireless nic ?
- What is POE ?
- POE switch vs POE Injector ?
- Write ip parameter of 181.0.20.0 ?
- Network ID
- First IP
- Last IP
- Broadcast IP
- Subnetmask
- Prefix
- Total no of IP
- Previous IP
- Next IP
- Why subnetmask ?
- What is RDP ?
- Explain netbios ?
- Explain osi layer when we ping 70.10 to 70.20 ?
- When we need switch device ?
- When we need router device ?
- Switch packet flow ?
- Router packet flow ?
- What is directly connected networks ?
- What is the command to enable telnet ?
- How to set console port authentication ?
- Write system route table of 129.0.129.0 ?
- Explain destination host unreachable ?
- Explain request timed out ?
- Explain importance of default gateway ?
- What is static route ?
- Write a command syntax of static route ?
- Explain when loadsharing will happen in cisco router ?
- Explain loadsharing type in cisco router ?
- What is the command to change loadsharing ?
- Explain layer 3 loop in deep ?

- Explain TTL and its importance ?
- Explain arp in layer 2 & layer 3 ?
- What is MTU ?
- What is segment,syn-no>window size ?
- Explain importance of three way handshake ?
- Difference between linux and windows ?
- What is kernel ?
- Difference between client and server os ?
- Explain about webservice ?
- Explain importance of DNS ?
- What is FQDN ?
- Explain packet flow of labs.surennetwork.com ?
- What is port number ?
- What is port number of NTP IMAP POP3 ?
- Explain DHCP and DHCP Process ?
- How dhcp works on same & diff network ?
- What is the command to enable dhcp relay agent ?
